Senior Matt Kagan and teacher Bonnie Stone were riding high.

Both contestants in *The Living Room Times's* fourth annual moneyless men's basketball pool were perfect in their predictions about the first twelve NCAA tournament games, and were locked in a two-way tie for first place heading into the fourth wave of first-round games Thursday.

Then the late-night results began coming in. Kagan and Stone had overestimated George Washington. They had underestimated Detroit. They had, like most everyone else, ignored Weber State. As a result, they had gone 1-3 in their picks for Friday's late-night games—and had seen their records plummet from 12-0 to 13-3 in the course of less than an hour.

When it was all over, North Carolina and UCLA were eliminated from the tournament, Indiana was into the second round, and seven contestants were tied for the lead in the *LRT* pool with 65 points apiece.

UConn rolls

Routs UTSA, 91-66

DENVER (AP) -- Connecticut prides itself as a team of runs. On Thursday night, the top-seeded Huskies showed why.

Richard Hamilton had 28 points as Connecticut, playing without ailing coach Jim Calhoun, closed the first half with a 18-1 run en route to a 91-66 victory over Texas-San Antonio in the first round of the NCAA tournament.
